Contract cheating	Contracting a third party to complete an assessment task, generally in exchange for money or other manner of payment.
Data fabrication and falsification	Manipulating or inventing data with the intent of supporting false conclusions, including manipulating images.

What are your rights at work?

Know your rights

There are some things you should find out from your employer as soon as possible. This includes:

- your pay rate
- whether you're full-time, part-time or casual (this affects your hours of work, pay rate and leave entitlements)
- your hours of work
- what your job duties will be
- whether there's an award or registered agreement that covers your job (this affects your pay rate, hours of work and other entitlements)
- if there's a probation period for your job.

Know your responsibilities

You have responsibilities as an employee. These include performing the duties of your job, being punctual and reliable, and following any workplace policies, procedures, and health and safety rules.

A new job can give you a lot of opportunities - try to make the most of it. Check with your employer to see how you're performing and look for ways to improve how you work.
